PROFESSIONAL SUMMARY

Results-driven Software Engineer with experience in full-stack development and industrial R&D. Proficient in Java (Spring Boot), Node.js, and modern frontend frameworks. Proven track record in delivering AI integration, IoT monitoring, and warehouse automation systems. Strong problem-solving skills with a focus on scalable architecture and enterprise efficiency.

TECHNICAL SKILLS

Languages : HTML/CSS, JavaScript, C#, PHP, Python, Java, Node.js

Frameworks : Spring Boot, Spring Framework, ReactJS, ASP.NET, Vue 3

Databases : SQL Server, MySQL, PostgreSQL, phpMyAdmin, Docker

APIs & Tools : RESTful API, JSON, Git, GitHub, ChatGPT, Postman

Languages & Soft Skills : English (B1), Public Speaking, Project Planning, Teamwork & Independent Work

WORK EXPERIENCE

Global Maritime Engineering & Monitoring Technology Co., Ltd (ESTEC)

Apr. 2025 – Jun. 2026

R&D Software Engineer

Da Nang, Vietnam

- **Thanh Hoa Forest Fire Management Project :** Developed a monitoring and early warning system for forest fire risks across Thanh Hoa province.
- **LDA AI Kiln Project :** Integrated AI-driven solutions to optimize operational efficiency for industrial kiln systems.
- **Evisor Mobile Application :** Contributed to upgrading a field-survey monitoring app, enhancing user experience and data stream stability.
- **QR/Barcode Scanner Integration for Warehouse Management :** Built real-time QR/Barcode scanning features to streamline check-in/out workflows and minimize stocktaking errors.
- **Warehouse Management System :** Designed database schemas and developed features for product lifecycle management, role-based access control, and inventory reporting.
- **Organizational Planning Management Project :** Constructed a core module for cross-departmental task allocation, scheduling, and progress tracking.
- **Forest Fire Detection Project :** Researched and deployed fire recognition modules leveraging raw camera feed datasets.

Da Nang Power One Member Ltd. (DNPC)

Jun. 2024 – Dec. 2024

Software Engineering Intern

Da Nang, Vietnam

- **Departmental Resource Management System:** Assisted in building internal modules for cross-departmental task assignments, staff scheduling, and monitoring resource utilization metrics.
- **Power Transmission Management System:** Developed modules to monitor high-voltage transmission lines, track real-time grid load data, and generate automated alerts for potential system overloads.
- **Transportation Management System:** Assisted in developing an internal application for scheduling and monitoring official vehicles, optimizing transit routes for technical teams.
- Gained hands-on experience with large-scale enterprise software architectures and strict information security standards in the power sector.

ACADEMIC & PERSONAL PROJECTS

Graduation Capstone Project 1 & 2 – Online Book Sharing Platform

- Researched and implemented a networking platform allowing readers to upload, exchange, and review books online.

- Delivered the project across two extensive phases, focusing on UI/UX optimization and robust backend architecture.

Aptech International Academic Projects (Sem 1, 2, 3)

- **Sem 3 – E-Commerce Web Application** (Aug. 2024 – Nov. 2024): Designed and built an e-commerce storefront fully integrated with shopping carts and order management modules.
- **Sem 2 – Recruitment Multiple-Choice Testing Web** (01/2024 – 03/2024): Engineered a timed testing module featuring auto-grading capabilities and a comprehensive question bank management toolset.
- **Sem 1 – School Portal Website** (Jul. 2023 – Oct. 2023): Developed a responsive information portal for course lookup, student schedules, and basic profile management.

EDUCATION

Duy Tan University

2021 – 2025

Bachelor of Information Technology – CMU Software Engineering Program

Da Nang, Vietnam

- Advanced curriculum aligned with Carnegie Mellon University (CMU) standards, specializing in software engineering practices.

Softech Aptech International IT Training Center

2022 – 2024

Advanced Diploma in Software Engineering (ADSE)

Da Nang, Vietnam

- Immersive full-stack development training with practical project deliveries at the end of each semester.

ACTIVITIES & INTERESTS

Sports & Martial Arts : Proficient in Karate, Football, Volleyball, and Badminton.

Performing Arts : Active participant in musical and dance performances.

Content Creation : Independent Content Creator on TikTok and YouTube platforms.

Media Production : Skilled in photography, videography, and digital video editing.
